Product description:

A climbing net wall is meant for children at the age of 4-12 years. The climbing wall develops child's physical skills and trains his/her endurance. The net was specially made for climbing of particularly strong 16 mm thick plastic/steel rope with plastic joints (POLYFIX), laminated timber posts, galvanized and powder painted pipes to be fixed between the posts. The posts of the climbing wall and ground fastenings are fixed to the ground by concreting.

Recommended surface for the safety area: sand or rubber tiles.
