Product description:

A climbing structure VIVO is meant for children at the age of 4-7 years and intended for the active development of childrens mobility. The equipment includes a climbing net made of strong 16mm thick plastic/steel rope with plastic joints, an Alpinist´s wall made of waterproofed plywood with climbing knots and a ladder made of powder coated steel. The equipment is fastened to laminated timber posts which with their metal ground fastenings are fixed to the ground by concreting. Recommended surface for the safety area: sand or rubber tiles.
