Product description:

The name says it all, a wall full of games! The fun starts by spinning the wheel to generate Human Powered Energy. Both the display and sounds will tell when the GameWall is charged and then it's time to pick one of four unique and fun games! There's a lot of choice! Speedtest, Lights Out, Reaction or Follow the Light. Big push buttons with bright LED lighting, a display and fun sounds create a fantastic play experience! Installation of the GameWall is a breeze because there's no need for any power cables or batteries, it runs on Human Powered Energy! Hang it up on the wall or use the additional feet to install it anywhere.
