Product description:

Sandboxes are meant for children at the age of 1-8 years. There is space for 6-8 children at a time in the sandbox, depending on the size of the sandbox. There are two coloured oval sheets in the corners of the sandbox for making sandcakes or keeping toys. Through the hole on one side of the sheet one can pour sand back to the sandbox. The sandbox is supplied with a subcloth to avoid mixing sand with soil and getting weedy. It is possible to order a special rubber rimmed net to be put on the sandbox in order to keep cats away and to avoid leaves and trash when out of use.
