<http://www.tiptap.ee/en/products/playgrounds/swings/safety-swing-seat-handicapped-children-chains-and-fittings-krk19>

## **Technical information:**

Width of structure: 0.33m

Length of structure: 0.46m

Height of structure: 0.44m

Wheelchair accessible: Yes

## **Product description:**

Made from EPDM rubber with aluminium inlay

The seat has a high back rest (40 cm instead of 20 cm)

At the front the seat has a chain with can be easily open with carabiner hooks, that makes entering and exiting the seat more easy.

The seat is designed especially for handicapped children or parents with back problems
