Product description:

A large playship with two captain bridges is designed for children from the age 4. Up to 20 children can play together on the ship at the same time. There can be played different role-play games or just run, hang, jump and climb on the playship.

The deck can be accessed by climbing net, climbing wall or using the stairs in the bow. Back down the ship can go by the net tube or slide. The ship's hold is lined with rope net. Climbing on that rope net makes the feeling like actually swaying on the sea.

There are 2 captain's helms on the deck of the playship. Turning the helms make propellers spin. In addition there are several portholes and a crank in the head of the ship. Turning the crank a screw propeller starts turning.

Stainless steel slide: height 1,55 m

Tube-slide: height 1,55 m
